## WEB DEVELOPER

Jhonathan Saldarriaga

awakate.dev

awakatedev

awakatedev

I'm a web developer specialized in front-end development and skills in UI and UX to create amazing and highest quality interfaces and software.

## ABOUT ME

.I am a 20-year-old Venezuelan who is passionate about technology, creative and enthusiastic about crypto.

## GOALS

I'm interested in working in a collaborative and efficient environment that allows me to learn new things, grow and help others grow with my knowledge and experience in the tech industry.

## EXPERIENCE

I have 2 years of experience doing front-end development and experimenting in various areas of software creation, experience in personal and collaborative projects as a leader.

I'm also co-founder of an open-source software development organization where together with colleagues from other parts of the world we develop tools to contribute to the world of technology and offer software solutions to our customers.

## EDUCATION

I am a self-taught student, and a student of the online education platform platzi and Udemy.
